

National Fire Safety Symposium & Risk Based Awards

Fire Protection Association of Pakistan (FPAP) have been striving to facilitate and promote fire safety in the country for more than two decades. Now FPAP brings a National Fire Safety Symposium & Risk Based Award on national level to focus on the existing scenarios and future of technology in the fire prevention.

Over the course of full day, participants will experience engaging topics and networking events from national and international experts. The Symposium will be full of features, panel discussions, research papers / presentations & short case studies.

A Vendor Showcase will provide networking opportunities and highlight companies and organizations supporting leading advancements in fire Protection.
